To whom it may concern

I am very glad to write a recommendation letter for Mr. Eugeniu Vezetu, whom you are considering for admission at your Department.

I know the candidate since 2017 as a student of Numerical Analysis course which I held at “Ovidius” University. He was my student afterwards at Pattern Recognition and Optimization courses. Also, he participated at my scientific seminars for students on deep learning with applications in objects recognition.

Eugeniu Vezetu proved all along of his university studies a big desire to learn and a big capacity of work. He is a valuable student of our faculty, focusing especially on computer science field. He succeeded in excelling in all subject matters, being ranked as first of his generation. He is also the gold medal recipient for the ESTIC computer science contest for students in 2018 (<http://math.univ-ovidius.ro/Doc/Admitere/SesiuneInfo/2018/Premii-2018.pdf>). He also participated at International Conference on Human-Computer Interaction conference (RoCHI 2018) (<http://rochi.utcluj.ro/articole/6/RoCHI2018-Vezetu.pdf>). While working with Eugeniu, I have had plenty of opportunities to witness his excellent abilities in terms of prioritizing tasks, managing tight deadlines, handling projects and delivering outstanding results. He is keen on details, a solution-oriented person and always goes directly for the root cause of the problem. Well-balanced, realistic and analytical thinking, Eugeniu is very practical and efficient, always prepared to fight to reach his goals. Mr Vezetu is an intelligent, capable, and personable young man. He is capable of handling any situation with thoughtfulness and maturity. He is also organized, efficient, extremely competent, and has an excellent rapport with people of all ages. His communication skills, both written and verbal, are excellent.

He confirmed the initial estimated aptitudes and successfully combined the academic knowledge with practical skills, expressing his real interest on continuously improving his knowledge.

I consider Eugeniu Vezetu capable of successfully completing any master program on computer science. Moreover, I am sure that the candidate will be able to cope with the demanding environment of your university.

---

Therefore, I would like to strongly recommend Eugeniu Vezeteu to be accepted for your master program because this would be a great opportunity to continue and improve his studies in computer science, and possibly to start a research career in this area.

Please feel free to contact me if you need further information.

Sincerely,  
Assoc. Prof. Elena Pelican
